RED ANGUS

*Spring* 4TH ANNUAL  
**BULL SALE**

---

THURSDAY - APRIL 11, 2024 | NOON  
AT THE RANCH NEAR NEWKIRK, OK

---

# Welcome to the 2024 Spring Bull Sale at Bowling Ranch

Welcome to our 4th Annual spring bull sale! We believe that this is an outstanding set of bulls and as good as we have ever produced. We rely heavily on AI & ET breeding. Ms. Bowling has invested heavily in some of the best genetics in the Hereford and Red Angus breeds so we can pass along excellent breeding to our customers. We believe good EPD numbers are essential and strive to develop cattle that also have great eye appeal.

The bulls we are offering this spring were developed on our wheat pasture in Jefferson County, OK then they were moved back to our Newkirk, OK ranch and placed on a 14%-high roughage ration, consuming 3% of their body weight, and all of the grass hay they wanted. With that said, these bulls should be able to go straight out to breed cows without melting and should stay sound.

The pictures displayed in the catalog are a good representation of the bulls and as they develop, they look better every day. So, I hope you will come see them for yourself on or before sale day. Videos and the sale will be available online. Our pre-sale lunch is excellent and worth the trip to the ranch.

With the help of Kris Young, LaMecia Stidham, and our excellent day crew, we have worked hard to present this sale selection and sincerely appreciate your interest in Bowling Ranch cattle.

Sincerely,

A handwritten signature in black ink that reads "Tim B. Stidham".

Manager, Bowling Ranch

Kris Young

Welcome to the 2024 Spring Bull Sale at Bowling Ranch

As you evaluate the offering in the following pages, you'll see one of the deepest, stoutest sets of bulls from both the Hereford and Red Angus breeds. Nancy, Tim and the crew have made significant investments in some of the top donor cows you'll find anywhere in the country. Resulting from this, you'll find some of the most maternal, elite, high accuracy genetics that will go out in the country and sire some of the best replacement females around. In addition, there are many new AI sires that have been introduced to mix in both elite calving ease or powerful growth sires.

As we've witnessed over the past several months, we have entered into, and are on the front end of a resurgence in the commercial cow/calf industry. As cow numbers across the country have hit 50+ year lows, we have begun a massive build back in cow numbers. The time is now for selecting the type of genetics that will yield both the top replacement females for in-herd use, but also the type of commercial bred & open heifers that will top most auctions in our region. The Hereford & Red Angus bulls in these pages are bred for that purpose. There is no longer any doubt as to the premiums red and black baldies gather, and we will continue to see that climb throughout this next

cattle cycle.

All of the bulls in these pages are strong aged and ready for heavy service. They are designed for one thing: increasing profitability for our commercial cow calf producers.

If at any time you have any questions, or I can be of service, please do not hesitate to contact me.
